Time Monday Thursday 7:00 p to 10:00 p
 Saturdays / Sundays 8a to 4p

Tuition \$475.00 Includes textbook
 Volunteers see section on State EMT Training Fund

Instructor Mark Chapman and EMS Academy Staff

Content: This program is an intensive four month course that uses a series of presentations by physicians, nurses, and other allied health professionals. The lectures are followed by skill development exercises and evaluation sessions. Throughout the program teamwork, safety and patient care skills are stressed.

Pre-requisite All students must be at least sixteen years of age in order to enroll in class. Students need to be certified in CPR to the "Healthcare Provider" level by the American Red Cross, or the American Heart Association. Those needing CPR certification can contact the Underwood Memorial Hospital Training Center at 384-1000.

Note In order to obtain New Jersey State Certification students must be physically capable of performing all skills, complete a final written test with a minimum score of 70 and meet all class requirements. A health screening and tuberculin skin test may be required for the clinical experience in some facilities.

Registration Students can register by mail to Gloucester County College by using the form below. Payment in Cash, Check, Voucher or NJ State EMT Training Fund form is expected at the time of registration. Participants that withdraw prior to the third night of class will receive a refund less the cost of the textbook and a \$20.00 processing fee.

Funding for Volunteer members of Approved EMS agencies will be accepted as payment by Underwood Memorial Hospital. State training fund forms can be obtained from the NJ Department of Health web site, the UMH-MICU web site or by calling the MICU office.
